---

## Career Objective

Android developer with a strong background in building user-centric applications using modern technologies. Proficient in Java, Kotlin, and leveraging Retrofit API for seamless data integration. Passionate about creating high-quality, innovative apps that enhance user experience.

## Technical Skills

- **Programming:** Java, Kotlin, SQL
- **Tools/Frameworks:** Android, XML, MySQL, Firebase, Google Map API, Telegram API
- **Soft Skills:** Microsoft Office, Leadership, Teamwork, Critical Thinker

## Projects

---

### Event Management Pro

Event Management Pro simplifies event creation, RSVP management, and ticket purchasing. Organize and attend events with ease using our comprehensive and intuitive app.

## **Hickey: A Social Media App**

Currently developing Hickey, a social media application designed for fostering personal connections. Users can engage in one-on-one and group chats, build their network through friend interactions, and personalize their profiles.

## **Suraksha**

Suraksha is an innovative safety app designed specifically for women, ensuring their security with just a swipe. With Suraksha, users can instantly call emergency contacts and send their real-time location to pre-selected emergency users, providing immediate assistance when needed. Our app utilizes advanced technologies such as Firebase for seamless data management and real-time updates, and web scraping to provide up-to-date information and alerts. Suraksha is your reliable companion for peace of mind and safety.

## **Jokes Hub**

Jokes Hub, the ultimate destination for anyone who loves a good laugh! With Jokes Hub, you can explore an endless collection of jokes that are sure to tickle your funny bone. Our app leverages the power of Retrofit API to fetch the latest and greatest jokes from the web, ensuring you always have fresh content to enjoy. Whether you're into puns, one-liners, or hilarious anecdotes, Jokes Hub has something for everyone. Download now and start your day with a smile!

## **Daan**

Daan is your gateway to making a positive impact in the world. Our user-friendly app connects compassionate donors with reputable NGOs, making it easier than ever to contribute to meaningful causes. Whether you want to support education, healthcare, environmental conservation, or any other charitable endeavor, Daan ensures your donations reach the right hands. NGOs can also register and manage their profiles, enabling them to reach a wider audience and secure vital funding. Join us in creating a brighter future—one donation at a time.

## Mini Projects

### Pantry-Hub

Developed Pantry-Hub, a cloud storage application leveraging the Telegram API and a dedicated bot. This application allows users to securely store and access various types of files with ease.

### Weather Wise

Developed Weather Wise, a mobile application providing real-time and forecast weather information. Leveraging the OpenWeatherMap API, the app delivers accurate and user-friendly weather updates

## Education

Degree/Certificate	Institute/Board	CGPA/Percentage	Year
